**1. Approval of report of previous working session**

The report of the previous working session (#28) was reviewed during this session and has been approved. It will be added to GitHub.

**2. WT1 Technical issues**

- Some update regarding modality of TOs and the use of coordinates. Version 0.9.0 to be released soon.

**3. WT2 Reference implementation and certification**

- The questionnaire of the working team regarding implementation has 13 responses. General conclusion is that the main focus is on planning, booking, trip execution and operator information.
- Nobody is working on support and payments at the time that the questionnaire was answered. It is expected that payment and authentication takes a lot of time.
- In a few months a new questionnaire will be made to check the progress (29.1)

**4. WT3 Standards**

- The MaaS alliance is looking into the functionalities of TOMP and like to have a more in depth discussion. Bon will plan a separate meeting (29.2)

**5. WT4 Dissemination and communication**

- Working teams has been busy with update the blueprint (dragonfly). This will be published on 15 July, without a lot of attention (29.3). After the summer a technical specification will be made.

**6. Any other business and tasks for next meeting**

- Due to holidays, it is decided to cancel the next meeting. Next meeting will be on the fifth of august.

**Next online meeting (working session #30) on Wednesday 5-08-2020, 10:00h**
